

## How to return an OverDrive title

Your e-books and audiobooks will **automatically** be returned at the end of your checkout period.

However, you may wish to return your book early.

This will let the next person in line read the book early and you will be able to check out another title.

### Kindle books

Kindle books are returned at [amazon.com/manageyourkindle](http://amazon.com/manageyourkindle).

- Click on the **Actions** button  next to the title you checked out.
- Then select **Return this book**.

If you do not return your Kindle eBook early:

- You will receive an email from Amazon 3 days before your eBook is due.
- You will receive another email from Amazon the day that your eBook expires.

### Adobe EPUB books (with the OverDrive app):

- Go to the app bookshelf:
  -  Tap the **OverDrive** icon in the top left corner.
  -  Tap the **Bookshelf** option.
- Tap and hold the book you want to return.
- Tap **Return** to return the title back to the library.

(**Delete** will remove the title from your device, but you will still have it checked out.)

### Adobe EPUB books (with Adobe Digital Editions):

- Open Adobe Digital Editions on your computer.
- If you are not in the library view, click the library icon  in the upper left corner.
- Right-click on the title you would like to return and select **Return Borrowed Item**.
